

Website Registration Form

Business Name: _____

Contact Person: _____

Street Address: _____

City: _____ State: _____ Zip: _____

Phone: _____ Fax: _____

Email: _____

Domain Registration - \$20.00

The first step is to purchase a domain and have it registered on the internet. A domain is simply the address of a website, such as www.mybusinessname.com. Once the domain is registered, a single page website will be posted to the world wide web. It will describe general information about your studio and include a link to an email address.

1st Choice

Request Domain: www. _____ .com

2nd Choice

Request Domain: www. _____ .com

3rd Choice

Request Domain: www. _____ .com

(If none of the names are available you will be contacted to discuss alternatives. This name will also need to be renewed each year at a cost of \$20.00/year)

Hosting Cycle - \$40.00 / Month

Hosting is a recurring fee to keep your website on the internet and it also includes unlimited changes to the posted pages during each month. It begins once the domain is registered, and the single page website is posted to the web. The cycle is a 12-month minimum and may be paid quarterly or annually.

Many options are available to construct the final website. The complexity of the site will depend solely on your budget. If you choose one of preset page templates we charge a flat rate of \$150.00. Modifications to a template or creating a website from scratch will require a price estimate from our web development team.

Domain Transfer Information - One Time \$20.00 Fee
